

**ADVANCED FIRE
& SAFETY INDIA
PVT LTD**

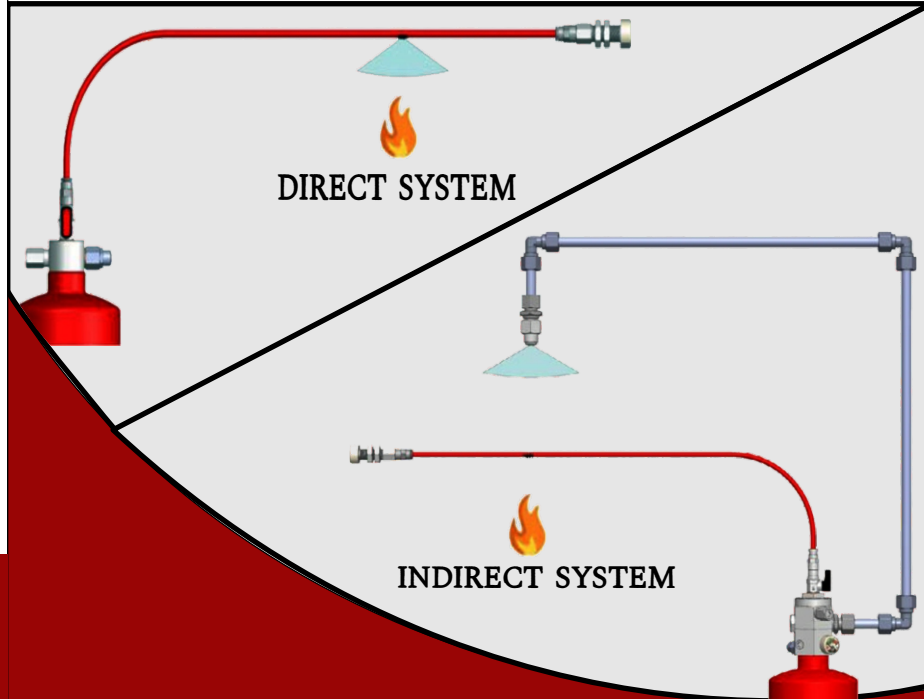

AUTOMATIC FIRE SUPPRESSION SYSTEM (CYLINDER BASED)

SPECIALITIES

- Heat / Smoke Detectors
- Linear Heat Detection
- Pressure Switch or Pressure Transducer
- Fire Control Panels
- Manual Remote Actuators
- Visual and Audible Signaling Units

ADVANTAGES

- High efficiency of extinguishing agent
- Fully automatic and autonomous
- Independent of electricity
- Fast Detection
- Possibility to manually activate the system
- One system can cover more space
- Harmless to humans and protected devices
- Variety of Additional Components
- Simple Installation and maintenance
- Cost-effective lifevalue

APPLICATIONS

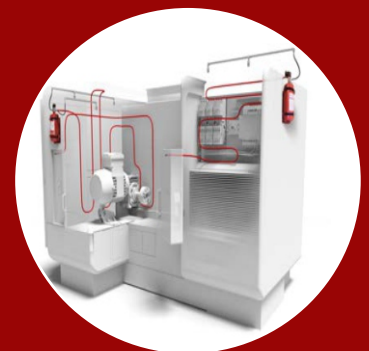

**BUSES/
TRUCKS**

**AGRICULTURAL
MACHINERY**

**ELECTRIC
PANEL**

**GENERATORS/
POWER ROOM**
